

Quality Etched in Time

**From The Engineers Of The
Bommer Industries New Products
Development Team.**

Since its establishment in
1876, Bommer Industries
has maintained a solid

reputation for integrity and innovation.
Today, The New Products Development Team
continues to look forward to the future, with a
commitment to technology and the continued
pursuit of quality products worthy of the
Bommer Brand.

Introducing Another Product From Bommer Industries. The Original Standard Of Excellence For More Than 125 Years.™

**Bommer's New
Anchor Pivot Series**

Bommer's new Anchor Pivot is surface applied with no special frame or door preparation so it's easily field applied.

This product will help overcome field problems such as bent hinge leaves, loose hinge reinforcements and loose screws.

With our "Lube Bearing" design, we eliminate all metal to metal contact which reduces friction to allow the door to operate smoothly.
