

From The Engineers Of The Bommer Industries New Product Development Team.

Since its establishment in 1876, the Bommer Industries, Inc. New Product Development team has maintained a reputation for integrity and innovation. The New Product Development team continues to look forward to the future, demonstrating a commitment to technology and the pursuit of quality products worthy of the Bommer Brand.

Introducing Another Product From Bommer Industries, Inc. The Original Standard Of Excellence For More Than 125 Years.™

Introducing The New Bommer LB4300 Series Lube Bearing Spring Hinge.

LB4300 Lube Bearing Spring Hinge.

The Lube Bearing design eliminates metal-to-metal contact, which reduces friction and provides a smoother operation.

New Self-Lubricating Bearings provide an operating surface that requires no additional lubrication during the life of the hinge.

Combined with the new Lube Bearings, the one-piece spring cartridge assembly with a freely moveable spring provides 22% better performance.

C U/L US Listed Grade 1 and BHMA/ANSI A156.17 Grade 1 Certified for 1,000,000 cycles.

Available in 20 architectural finishes, and more than 70 hole patterns with optional square, 1/4" radius or 5/8" radius corners.

Available in Steel .096 gauge material for standard residential applications, and Steel or Stainless Steel in .130 and .134 gauge material for commercial applications.

For pricing, please contact your local sales representative or Bommer Industries, Inc. at **1-800-334-1654**.

The Bommer Industries, Inc. logo reflects over 125 years of quality and innovation in the USA. As the leader in our industry, we continually explore new ways to make the best even better. For more information, visit our web site at www.Bommer.com.
